## **About Crohn's Disease & Ulcerative Colitis**

Today more than 1.6 – 3.1 million Americans (150,000 of whom are children under the age of 18) suffer from the physical and emotional challenges of Crohn's disease and ulcerative colitis. Disturbingly, the number of children and teens being diagnosed has more than doubled in the past decade. Through the generosity of supporters such as you, Foundation researchers have been able to develop more effective means to help these patients live better and to fund research initiatives to find a cure.

## **About the Crohn's & Colitis Foundation**

Established at a time when no other organization was devoting funds specifically to inflammatory bowel disease, the Foundation has succeeded in improving care of patients throughout the country. In addition, the Foundation has been at the forefront of medical research in the field, playing a role in the breakthrough of every major treatment. We are very proud that over 80 cents of every dollar raised goes towards our mission critical services. The Foundation has been recognized as one of only seven health charities to earn an "A" rating from the American Institute of Philanthropy.
